Job Description

Drafting Technologist Responsibilities

- Operate computer-aided design (CAD) software and drafting equipment to produce and modify engineering drawings and layouts.
- Review and verify drawings to ensure they comply with project specifications, engineering standards, and applicable building codes.
- Prepare construction specifications, material lists, quantity take-offs, and cost estimates to support project planning and budgeting.
- Develop preliminary sketches and design concepts based on project requirements and engineering data.
- Compile and organize complete drawing and documentation packages for permit applications, tendering, and construction purposes.

- • Create and manage Building Information Models (BIM) to generate coordinated digital models of building systems and structures.
- • Prepare technical reports, project documentation, and written summaries related to design and construction activities.
- • Assist in the preparation of tender documents, contracts, and project schedules.
- • Coordinate with engineers, architects, and project managers to ensure drawings and models accurately reflect design requirements.

Employment Requirements:

Education:

High school diploma and completion of a two- to three-year college program in engineering design and drafting technology or equivalent experience.

Experience:

1 to 2 years of experience (apprenticeship, co-op or employment)

Location:

8888 Keele Street, Unit 7, Concord, ONL4K 2N2

Salary: \$36.50 per hour
